Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PROCEEDINGS

OF THE

Academy of Natural Sciences

OF

PHILADELPHIA,

1892.

PART I, JANUARY—MARCH.

PUBLICATION COMMITTEE.

JOHN H. REDFIELD, EDW. J. NOLAN, M. D.,
THOMAS MEEHAN, ANGELO HEILPRIN,
CHARLES E. SMITH.

EDITOR: EDWARD J. NOLAN, M. D.

PHILADELPHIA:
ACADEMY OF NATURAL SCIENCES,
LOGAN SQUARE.
1892.

PUBLICATIONS OF THE

ACADEMY OF NATURAL SCIENCES

OF PHILADELPHIA.

Eight volumes of the New Series of the JOURNAL and Parts 1 and 2 of volume IX (Quarto) have been issued—1847 to 1888. The price per volume of four parts is $10, or $3 per part to subscribers; and to others $12.50 per volume, or $3.75 per part. Vol. VII contains "The Extinct Mammalian Fauna of Dakota and Nebraska, with a Synopsis of the Mammalian Remains of North America." Illustrated with thirty plates. By JOSEPH LEIDY, M. D., LL. D.

The FIRST SERIES OF THE JOURNAL, 1817 to 1842, in eight volumes, octavo, may be obtained at $40 to members, and to the public, $48.

The FIRST SERIES OF THE PROCEEDINGS of the Society, published in octavo, 1841 to 1856, of which eight volumes were completed Dec. 31, 1856, may be obtained at $24 to members; and to the public, $30.

The SECOND SERIES OF THE PROCEEDINGS, commencing January 1, 1857 (of which fourteen volumes were completed Dec. 31, 1870), may be obtained at $42 to members, or $3 per volume separately; and to the public, $3.75 per volume.

The THIRD SERIES OF THE PROCEEDINGS, illustrated, commencing January 1, 1871 (of which twenty-one volumes were completed Dec. 31, 1891), is published at $5 per annum, payable in advance, to subscribers; single volumes, $6.25.

AMERICAN JOURNAL OF CONCHOLOGY, 1865—71. Seven vols., 8vo. Containing 2500 pages, illustrated by one hundred and fifty plates, many of them colored, besides about a thousand wood engravings. Published at $70. Price reduced to $42 for the set. Separate volumes, $10 each.

BOOKS FOR SALE.

The ACADEMY has the following works for sale at the prices affixed:

DESCRIPTION OF SHELLS OF NORTH AMERICA, with 68 colored plates. By THOMAS SAY. 1830–34. $10.50.

MONOGRAPH OF THE TERRESTRIAL MOLLUSCA OF THE UNITED STATES. With illustrations of all the species. By GEO. W. TRYON, JR. Fine edition, plate paper, with duplicate plates, colored and tinted, $20; colored edition, $13.50; plain edition, $8.50. Only one hundred copies printed, which have been mostly sold.

MONOGRAPH OF THE FRESH WATER UNIVALVE MOLLUSCA OF THE UNITED STATES. By S. S. HALDEMAN, 1840–44. With CONTINUATION to 1871. By GEO. W. TRYON, JR. 2 vols., with many colored plates. Fine edition, duplicate plates, $40; with colored plates, $25; with plain plates, $18.

Either the original work or the continuation furnished separately, if desired.

SYNONYMY OF THE SPECIES OF STREPOMATIDÆ (Melanians) OF THE UNITED STATES. By GEO. W. TRYON, JR. Cloth, $2; paper, $1.75.

LIST OF AMERICAN WRITERS ON RECENT CONCHOLOGY, with the Titles of their Memoirs and Dates of Publication. By GEO. W. TRYON, JR. Cloth, $2; paper, $1.75.

MONOGRAPH OF THE ORDER PHOLADACEA and other Papers. By GEO. W. TRYON, JR. Cloth, $2; paper, $1.75.

COMPLETE WRITINGS ON RECENT AND FOSSIL CONCHOLOGY OF C. S. RAFINESQUE. Edited by WM. G. BINNEY and G. W. TRYON, JR. $2.50.

OBSERVATIONS ON THE GENUS UNIO. By ISAAC LEA, LL. D. 4to, Vols. 1 to 13. With Index. Nos. 1, 2 and 3, complete. Illustrated with several hundred fine lithographic Plates. $60.

Same, Vols. 2 to 13 inclusive, except Vols. 4 and 12. Each volume separately, $5.

SYNOPSIS OF THE GENUS UNIO. By ISAAC LEA, LL. D. Fourth edition. $5.

CONTRIBUTIONS TO GEOLOGY. By ISAAC LEA. $3.

FOSSIL FOOT-MARKS. By ISAAC LEA. Large folio, text and plate. $2.

Same, plate alone. 50 cents.

NOTICE TO BOOKSELLERS—All the publications of the Society will be supplied to Booksellers at a discount of 20 per cent on the prices charged to the public.

Application to be made to EDWARD J. NOLAN, M. D., at the Hall of the Academy, Logan Square.

April, 1892.

Hayden Memorial Geological Fund.

Mrs. Emma W. Hayden has given to the Academy of Natural Sciences in trust the sum of $2,500 to be known as the Hayden Memorial Geological Fund, in commemoration of her husband, the late Prof. Ferdinand V. Hayden, M. D., LL. D. According to the terms of the trust, a bronze medal and the balance of the interest arising from the fund are to be awarded annually for the best publication, exploration, discovery or research in the sciences of geology and paleontology, or in such particular branches thereof as may be designated. The award and all matters connected therewith are to be determined by a committee to be selected in an appropriate manner by the Academy. The recognition is not confined to American naturalists.

CONTENTS.

STANDING COMMITTEES FOR 1892. 9

BANKS, NATHAN. The Spider Fauna of the Upper Cayuga Lake Basin. (Plates I, II, III, IV and V.) 11

WISTAR, ISAAC J. Remarks on the Quantity, Rate of Consumption and Probable Duration of North American Coal and the Consequences to Air-breathing Animals of its entire combustion. 82

RHOADS, SAMUEL N. The Birds of Southeastern Texas and Southern Arizona observed during May, June and July, 1891. 98

MCCOOK, REV. H. C. Drexelia, a new Genus of Spiders. 127

PILSBRY, H. A. Anatomy of West Indian Helices. (Plate VI.) 128

PILSBRY, H. A. New and Unfigured Unionidæ. (Plates VII and VIII.) . . 131

FOX, WILLIAM J. Report on the Hymenoptera collected in West Greenland. . . 133

BROWN, AMOS P. The Development of the Shell in the Coiled Stage of Baculites compressus Say. (Plate IX.) 136

IVES, J. E. A new Species of Pycnogonum from California. (Plate X.) . . . 142

STONE, WITMER. Birds collected by the West Greenland Expedition. . . . 145

PILSBRY, HENRY A. A new Species of Pachychilus. (Plate VIII.) . . . 153

SKINNER, HENRY, M. D. Greenland Lepidoptera. 156

MEEHAN, THOMAS. Contributions to the Life-Histories of Plants, No 7. On the Vitality of some Annual Plants. On Self-pollination in Amsonia Tabernæmontana. On a special form of Cleistogamy in Polygonum acre. On the Direction of Growth in Cryptogamic Plants. Tricarpellary Umbellifers. A Mode of Variation in Stellaria media. On the Sexes of the Holly. On the Stamens of Ranunculus abortivus. On the Character of the Stamens in Ornithogalum umbellatum. Note on Barbarea in connection with Dichogamy. 160
